

GAME OF CLOTHES

Memory Game of Opposites

Game of Clothes - Memory Game is an educational and entertaining game. It is a memory game which has 16 pairs of the same word, but each pair is presented by two different pictures. The game is based on exploring the various connections between these pictures and can be played by players of various ages.

The topic of fashion was chosen to bring the spotlight on excessive production and consumption of clothes we are experiencing. As consumers and citizens we need to be aware of the impacts of the fashion industry on our lives and lives of those who make our clothes.

You can find more rules to download in English, Slovak, Czech, Polish and Hungarian on edugames.recycool.academy.

Games were created by Fashion Revolution teams located in the Visegrad countries, with financial support of the International Visegrad Fund. Fashion Revolution is a worldwide movement for transparency in the fashion industry, which leads towards the acceptance of human and environmental rights.

Nitka

Rules

The cards for this game are linked by one word, even though there are two different pictures for it. Shuffle the cards and lay them face-down. The players take turns to turn over two cards. If a player finds a matching pair, they explain the connection between the cards (why and how the pictures on the cards are related).

The player who finds matching cards gets to keep them, is awarded one point and gets another turn. The winner is the player with the most pairs.

Tips

- As a variation, players can describe their own reality in relation to the pictures on the cards.
- The cards can be used for various language learning activities.
